Request to Participate in the DFSC Defensible Space Fuel Reduction Projects

The Diablo Fires Safe Council (DFSC) is sponsoring defensible space fuel reduction projects for 2013 – 2014. The defensible space fuel reduction projects will provide cost-share assistance to groups or individuals to reduce fuel loads and create defensible space.

DFSC is soliciting information from licensed landscape and fuel reduction contractors to participate in this program.

Diablo Fire Safe Council will maintain a list of Contractors to aid the property owners with selection and scoping of project work.

Contractors will be hired directly by property owners with DFSC funds augmenting private property owner contributions. Contractors will not contract directly with the Diablo Fire Safe Council.
